

Welcome! As of now, you are tentatively enrolled in AP Psychology for the 2023-2024 school year. Final schedules are released in July. I am excited to work with you!

I. Intro

1. To prepare for this course, a large three ring binder, lined paper, pencils, and a highlighter should be purchased.
2. **Please Note:** This course covers *all* content required by The College Board. Familiarize yourself with it this summer via the **AP Psychology Course Framework**, available on The College Board website. **Be advised: some topics are loaded.** To handle them appropriately, maturity and open-mindedness will be necessary and required.

II. What should I make sure I do before I leave for summer vacation?

1. Get a copy of the **Myers *Psychology For AP* (purple cover) textbook**, and also pick up a **Unit 1 Packet** from Mr. Wagenblast (room L404).
2. **Register for the AP Psychology Summer Work *Google Classroom* (JOIN CODE: PCZXXZI).** (You'll be put into period specific sections by the end of the summer - this is just a place to get information to you for now.)

III. What do I have to do?

1. **YOU WILL BE EXPECTED TO HAVE THE ASSIGNMENT BELOW COMPLETED BY THE DAY OF YOUR FIRST MAJOR TEST** (week of 9/18 - the exact date for your section will be announced upon your return in September). This is the material I will be teaching you when we get back to school.
 - **Read** the textbook on pages 1-74 (*Unit 1: The Scientific Foundations of Psychology*).
 - **Complete the associated Unit 1 Packet- must be handwritten!!! Typed copies are not acceptable.**

This assignment will be collected and graded on the day of your first major test
(week of 9/18 - exact date TBA upon our return to school)

If you have any questions, comments, concerns, or just want to say hello, feel free to email
me over the summer...
